DETAILED ACTION
EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mark J. Marcelli on September 28, 2006.

The application has been amended as follows:

Cancel Claims 28 and 29.

Allowable Subject Matter

Claims 1-27 and 30-31 are allowed.

The following is an examiner's statement of reasons for allowance: The closest art known to the Examiner is listed on the PTO 892 and IDS forms of record. None of the references anticipates or suggests, *inter alia*, annealing to activate said dopant impurities in said gate electrode material; and planarizing said top surface to form a planarized top surface that extends directly over said semiconductor fin, as required by present Claims 1-27. Moreover, with respect to Claims 30-31, the cited prior art does not anticipate or make obvious, *inter alia*, etching portions of said gate electrode

material not covered by said patterned masking layer to produce a gate electrode that traverses said semiconductor fin; and with said patterned masking layer in place, introducing dopant impurities into said semiconductor fin to form source and drain regions therein, as required by the afore mentioned claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
